## the company.

E' dagli inizi degli anni '80 che l'azienda sta espandendo i suoi mercati di riferimento, con una continua crescita sia dei paesi che del numero clienti e fatturato, con un portafoglio prodotti sempre più dettagliato per soddisfare le richieste più innovative ed esclusive.

Nel 1974 ha inizio questa avventura, tuttora azienda imprenditoriale dove la seconda generazione della famiglia Vicario, Daniele e Rossana, ha implementato le attività produttive, inizialmente focalizzate sulla rubinetteria cucina, includendo il bagno e lo spazio doccia.

Questo significa che la volontà di mettersi a confronto con le proprie capacità ed i propri prodotti da una parte e di aver avuto un riscontro positivo in termini di accettazione da parte dei clienti, ha premiato l'imprenditorialità di ARMANDO VICARIO, sia come fondatore che come società nel divenire.

Armando Vicario Srl was founded in 1974, taking its first steps in the tap world in a landscape dominated by water. A few years later, the company began to expand its presence on international markets proposing its innovative designs to a wider public.

Over the years, the company constantly enriched its product mix, so as to meet the most exclusive requests coming from a diversified clientele, finally establishing an on-demand business model.

Keeping in mind the client's best interest, the company was able to further expand its activities with the second generation of the family, Daniele and Rossana, and their extremely entrepreneurial mindset. Starting from the kitchen faucets segments, they widened the company's areas of expertise by also including bathroom mixers and shower components. Armando Vicario never lost its willingness to make the difference in the tap world. By going international, the company proved itself as a leader in the market, but most importantly, an interesting player acknowledged by customers all over the world.

Ispirazione e passione per il suo lavoro. Sono questi i presupposti con i quali Armando Vicario ha fondato l'azienda circa quarant'anni fa, per incorporare le sue capacità tecniche e commerciali in un marchio che raccontasse le stesse e di conseguenza iniziare ed implementare la sua visione in un'azienda produttiva per mettersi in gioco e confrontarsi con il mercato.

Un progetto articolato, dove hanno interagito ed interagiscono tuttora una comprovata capacità di prevedere l'evoluzione del mercato, un affinato e sempre in evoluzione know-how interno in grado di far cooperare menti ed abilità manuali, condividendo le stesse passioni e capacità del fondatore.

L'azienda è certificata ISO 9001. Produciamo nel rispetto delle linee guida delle principali normative internazionali.

Inspiration and passion: these are the two main pillars that have been driving the company's productive and entrepreneurial activities for over 40 years. According to the vision of Armando, the founder, the technical and commercial skills had to be linked to a brand capable of continuously challenging the market and the competitors.

Today, Armando Vicario is an up-to-date reality where the ability of foreseeing future changes in the market is balanced with the ever-growing internal know-how, both from the craftsmanship and the technical knowledge point of views.

The company is certified ISO 9001 and the production meets all the requirements of the main international regulations and governmental guidelines.

the lake.

#### DISTRETTO DEI LAGHI

L'azienda ha sede a Gozzano, in provincia di Novara (40 km nord-ovest da Milano e a circa 40 km dall'aeroporto di Milano-Malpensa), una bellissima area caratterizzata dalla storica vocazione alla produzione di rubinetteria e lavorazioni dell'ottone.

#### THE LAKES DISTRICT

The Company is based in Gozzano, (40 km N/W from Milan and 40 km far from Milan Malpensa International airport). The lakes districts area is the historically seat of main Italian faucet companies as well as an amazing place "where to be", thanks to the nice lakes and surrounds.

## projects.

Nuove risorse specializzate sono entrate in azienda, sia in ambito commerciale che tecnico-produttivo, per portare nuove competenze e capacità che valorizzeranno il percorso dell'azienda nel suo divenire.

Ma senza dubbio la maggiore abilità dell'azienda è quella di trasformarsi internamente, di essere in continuo movimento secondo il dinamismo dei mercati e sempre in armonia con una sostenibilità economica, ambientale e sociale.

### MADE IN ITALY È IL NOSTRO VANTO

I rubinetti Armando Vicario sono interamente disegnati, progettati e prodotti in Italia: frutto di ricerca, esperienza, "saper fare" e passione a tutela della qualità e sicurezza del cliente.

The continued growth drives the company to redefine a new organizational structure to pro-actively address the challenges of an evolving market. New highly qualified professionals joined AV team both in the commercial and in the technical-productive areas, guaranteeing the enhancement of advancements in the field.

One of the greatest assets of the company is the ability to renew and innovate itself and change continuously according to the market's needs, by always keeping in mind the economic, environmental and social sustainability.

### ITALIAN PRIDE

Armando Vicario collections are entirely designed, developed and produced in Italy: they are the result of research, experience, know-how and passion, essential factors in the safeguard of the customer's quality and safety.

## eco-system.

In a single-lever traditional mixer handle opening immediately activates mixed water, requiring hot water flow even if not necessary, with a consequent use of energy.

In ECO single-lever mixers, equipped with "ECO-SYSTEM" cartridges, the handle is positioned to dispense unmixed water only, which gradually heats up, requiring energy, by moving handle to the left only.

Cold opening

In a single-lever mixer equipped with "WATER-SAVING" cartridges, the handle opens with a double click: the first limit to 50% the mixed water flow, becoming 100% when fully opened only. Water temperature adjusting according to the classic mode by turning handle right/left until desired one.

## water saving.

#### RISPARMIAMO CARTA, RISPETTIAMO LA NATURA.

Anche un piccolo e consapevole gesto può contribuire a proteggere l'ambiente esterno e garantire un futuro migliore al nostro pianeta. Per questo abbiamo deciso di proporvi il nostro mondo bagno solo in digitale.

#### RESPECT NATURE, SAVE PAPER.

Even the smallest gesture can contribute to protecting the environment and guaranteeing a brighter future to our planet. This is why we decided to present you our bathroom world only in digital format.

## finishing.

\* PAINT FINISHING / FINITURA A VERNICE

Lumière

Lumière stems from the idea of the hidden,  
luxurious art de vivre of the last century. Its perfect  
and steady lines merge together beautifully,  
giving rise to a unique yet complete range.  
*Très chic!*

**stainless-steel.**

**VICARIO presents NOX, a new series of AISI 316 stainless-steel bath taps and showers.** Qualitatively suitable material to offer high quality mechanical and aesthetic performance, thanks to its resistance to corrosion activated by chemical agent, saltiness and anything else could harm the metal surface. At the same time, it offers maximum hygiene thanks to its particular conformation.

#### **OFFERTE**

Le offerte non impegnano il fornitore a definire il relativo contratto di fornitura. I contratti non sono definitivi se non dopo che siano regolarmente accettati dalla Ditta.

#### **PREZZI E MODALITÀ DI PAGAMENTO**

I prezzi non includono l'imposta sul valore aggiunto (I.V.A.). I costi d'imbocco e trasporto non sono vincolati al contratto di fornitura ma sono soggetti agli eventuali aumenti che dovessero intervenire prima della spedizione. Il pagamento delle fatture deve essere fatto nelle forme, modalità e termini in esse indicati; trascorsa la scadenza stabilita decorrerà, senza avviso alcuno, l'interesse in ragione del 5% annuo in più del tasso ufficiale di sconto vigente al momento della scadenza. In caso di contestazione del cliente su di una fornitura riconosciuta ufficialmente dal fornitore, potrà essere data autorizzazione a modificare le suddette modalità di pagamento. Il fornitore si riserva il diritto di sospendere le consegne in caso di mancato pagamento di precedenti forniture.

#### **VARIAZIONE PREZZI**

Le offerte e conferme sono fatte con riserva di revisione prezzi da parte del fornitore, in relazione all'eventuale aumento del costo dei materiali e/o manodopera senza obbligo di darne giustificazione o dimostrazione dei relativi conteggi.

#### **CONSEGNE**

Il termine di consegna non costituisce elemento essenziale del contratto di fornitura; difficoltà di consegna, dovute a gravi motivi imprevisti all'atto della conferma, autorizzano il fornitore alla risoluzione del contratto senza responsabilità di nessun genere. La data di consegna indicata nelle conferme si riferisce alla decade in cui la merce è pronta a magazzino per la spedizione. Il fornitore si riserva il diritto di effettuare la consegna di un ordine in una o più spedizioni. Fotografie, disegni tecnici o altri riferimenti presenti nel catalogo non sono vincolanti. Il fornitore si riserva il diritto di apportare eventuali variazioni alla produzione che comunque non ne diminuiranno la validità e la qualità. Tutte le consegne sono rese franco stabilimento del venditore e viaggiano ad ogni effetto a rischio e pericolo dell'acquirente anche se la resa è stabilita franco destino e il trasporto eseguito con automezzi del fornitore.

#### **RECLAMI**

Tutti i reclami riguardanti la merce, ivi compresi quelli relativi al numero, difetti e differenze, devono essere fatti per iscritto ed a pena di decadenza entro 8 giorni dal ricevimento della merce.

#### **EFFETTI LEGALI**

Qualsiasi condizione indicata dal compratore in contrasto con quelle indicate nel contratto di fornitura non avrà valore. Per qualsiasi omissione di condizioni si farà riferimento al codice civile italiano. La nullità di una condizione del contratto di fornitura non toglierà validità alle altre condizioni. Per qualsiasi vertenza o contestazione l'unica e competente autorità giudiziaria è quella di Novara.

#### **OFFERS**

The offers don't commit the supplier to define the related supply contract. The contracts are not definitive if they aren't regularly accepted by the company afterwards.

#### **PRICES AND PAYMENT CONDITIONS**

The prices don't include the value added tax (VAT). The supply contract doesn't bind packaging and transport costs, but they are subject to possible increases if they should occur before shipment. The payment of the invoices should be carried out in the forms, ways and terms indicated in them; after the expiry of the established date to be due, there will be applied an interest of 5% yearly as well as the official discount rate in force at the moment of the expiry, without any advice. In case of customer's claim concerning a supply officially accepted by the supplier, the above-mentioned payment conditions could be modified upon authorization. The supplier reserves the right to suspend the deliveries in case of failed payment of the previous supplies.

#### **MODIFICATION OF PRICES**

The offers and confirmations are carried out with revision reserve of prices by the supplier, according to possible cost increases of the materials and/or labour without having the right to give justification or demonstration of the related counts.

#### **DELIVERIES**

The term of delivery doesn't constitute a main element of the supply contract; difficulties in delivery due to serious unplanned reasons during the confirmation deed, authorize the supplier to the cancellation of the contract without any kind of responsibility. The delivery date indicated in the confirmation documents refers to the 10-day period where the goods are ready in the warehouse for shipment. The supplier has the right to carry out the delivery of an order in one or more shipments. Photos, technical drawings or other references present in the catalogue are not binding. The supplier has the right to apply possible modifications to the production, which however won't diminish the validity and the quality. All the deliveries are shipped ex-works and travel at purchaser's risks, even if the goods are delivered free to destination and the transport carried out by means of the supplier.

#### **COMPLAINTS**

All the complaints regarding the goods, including the ones related to the number, defects and differences should be carried out in writing and within 8 days after receipt of the goods.

#### **LEGAL EFFECTS**

Each condition indicated by the purchaser in contrast with the one in the supply contract is not valid. Refer to the Italian civil code for each omission of conditions. The nullity of a condition in the supply contract doesn't withdraw the validity of the other conditions. The jurisdiction in Novara is the only competent one for every dispute or challenge.
